

HYDROMETEOROLOGICAL SERVICE
MINISTRY OF AGRICULTURE

WEATHER BRIEF for Wednesday 10 December 2025, from the Hydrometeorological Service, Guyana-
Rainfall records for the past 24 hours, measured at 08:00 hours on Wednesday, 10 December 2025, were available for some stations. Maria's Plesure in Region 03 recorded the highest rainfall of 42.8 mm.
Synopsis: Moisture intrusion from the Intertropical Convergence Zone(ITCZ) continued to generate weak to moderate instability, coupled with local convection are the main features affecting the forecast area, and is expected to continue for the remainder of the Week.
Weather review: Partly cloudy to cloudy skies with occasional showers and thundershowers in Regions 2 to 3, 7,10, and inland areas of Region 4. Otherwise, mostly sunny skies.

Table # 2: Occurrences of high and low tides for the next 24 hours and the times for sunrise and sunset.

Tonight (December 10, 2025)		Tomorrow Morning, Thursday, December 11, 2025)		Tomorrow, afternoon, Thursday, December 11 202	
High Tide 20:12 hrs Height 2.64m SPRING TIDE IS NOT IN EFFECT		Low Tide: 02:48 Height 1.04m High Tide 09:43 hrs Height 2.50m SPRING TIDE IS NOT IN EFFECT		Low Tide: 02:48 Height 1.04m	
Sunrise:		05:52 hrs	Sunset:		17:37hrs.

SPRING TIDE ADVISORY: *It is not in effect.*

SEA CONDITIONS: Rough seas will likely produce hazardous sea conditions, coupled with spring tides can lead to over-topping and damage of river and sea defences, along low-lying and riverine areas. Pearsons are advised to exercise caution to protect their lives and property. These waves will likely have periods of between 6 and 9 seconds.

Winds: Moderate North-easterly to Easterly breeze.

Friday and Saturday: Cloudy with occasional showers in regions 1 to 3 and 7. Elsewhere, no significant rainfall in the early morning. For the remainder of the forecast period, except for scattered showers, mostly sunny skies will dominate. **Rainfall between 0 and 15mm.**

Sunday: Partly cloudy to cloudy in the morning with showers and thundershowers in Regions 4, 5, and North Region 6. Elsewhere, no significant rainfall. In the afternoon, Regions 2 to 4 and 7 can expect frequent showers and thundershowers. In the other Regions, scattered showers. **Rainfall between 5 and 30mm.**

Monday and Tuesday: Partly cloudy to cloudy skies with scattered showers in all the Regions. **Rainfall between 0 and 10mm.**

For the climate forecast, please refer to the latest Climate Outlook, which is now available. For the regional climate forecast, please see the latest Climate Outlook, available on the Hydrometeorological Service's website at <https://hydromet.gov.gy>. An update in the bulletin is provided daily by the Hydromet Service.

Meteorological Officer: Julian Francois

Our Mission: To Observe, archive and understand Guyana's weather, and Climate and provide meteorological, hydrological and oceanographic service in support of Guyana's national needs and international obligation.
