*MINISTRY OF AGRICULTURE*

**WEATHER BRIEF for today Wednesday, 08 October 2025, from the Hydrometeorological Service, Guyana**

*Rainfall records for the past 24 hours, measured at 08:00 hrs Wednesday, October 8, 2025, were available for most stations.*

***Abary MMA in Region 5 recorded the highest rainfall of 44.5 mm.***

***Severe Weather Advisory: In areas of thundershowers, lightning strikes and heavy winds may be observed. Persons should exercise caution in efforts to safeguard life and property.***

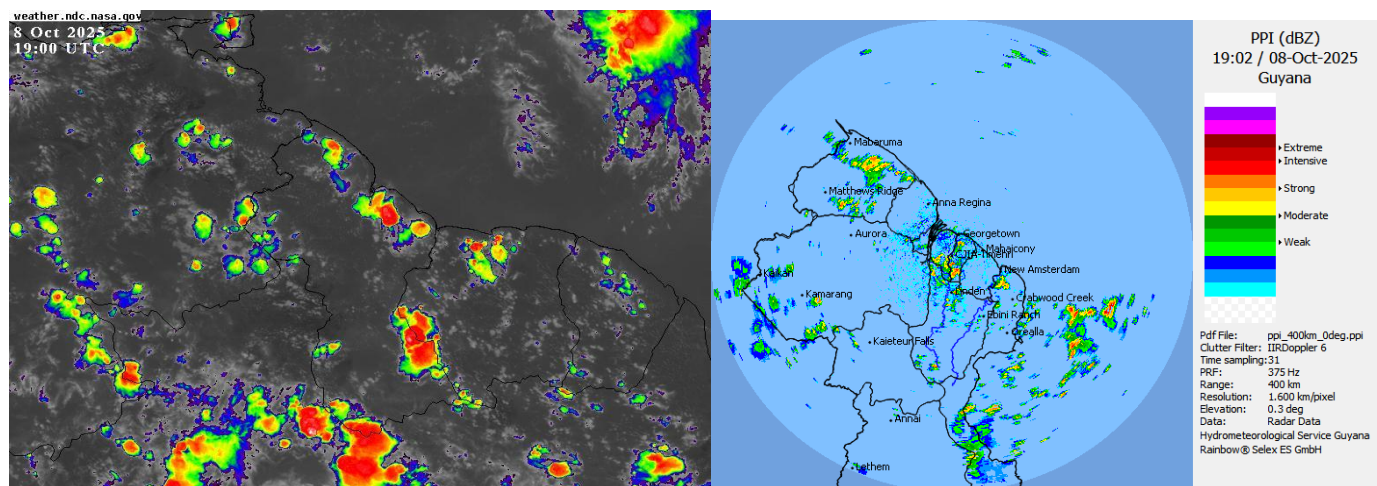

**Marine advisory:** Residents of low-lying, riverine, and flood-prone areas are advised to take the necessary precautions against flooding as over-topping is likely due to spring tides. In addition, long-period waves can likely result in damage to sea defenses. All marine users including seagoers, are asked to exercise caution during this time.

**Synopsis:** Most of the convective activity continued to be observed over the Inland and Hinterland areas during the afternoon. This is due to localized diurnal heating coupled with an increase in low-level moisture. This pattern is expected to continue for the remainder of the week. Coastal Guyana will also continue to experience isolated pockets of instability during the morning as low-level forcings persist over these areas. Stable conditions will return to Coastal Guyana during the weekend.

*Today's weather review:* Cloudy skies with isolated to scattered showers were observed over the Inland and Hinterland areas. All other areas observed partly cloudy to cloudy skies.

| Wednesday, 08 October 2025 (19:00 hrs – 07:00 hrs) |                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Thursday, 09 October 2025 (07:00 hrs – 19:00 hrs) |                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                          |
