

*HYDROMETEOROLOGICAL SERVICE*  
*MINISTRY OF AGRICULTURE*

**WEATHER BRIEF for today Wednesday, 15 October 2025, from the Hydrometeorological Service, Guyana**

*Rainfall records for the past 24 hours, measured at 08:00 hrs Wednesday, October 15, 2025, were available for most stations.*

**Hogg Island in Region 3 and Imbaimadai in Region 7 recorded the highest rainfall of 12.3 mm.**

***Severe Weather Advisory: In areas of thundershowers, lightning strikes and heavy winds may be observed. Persons should exercise caution in efforts to safeguard life and property.***

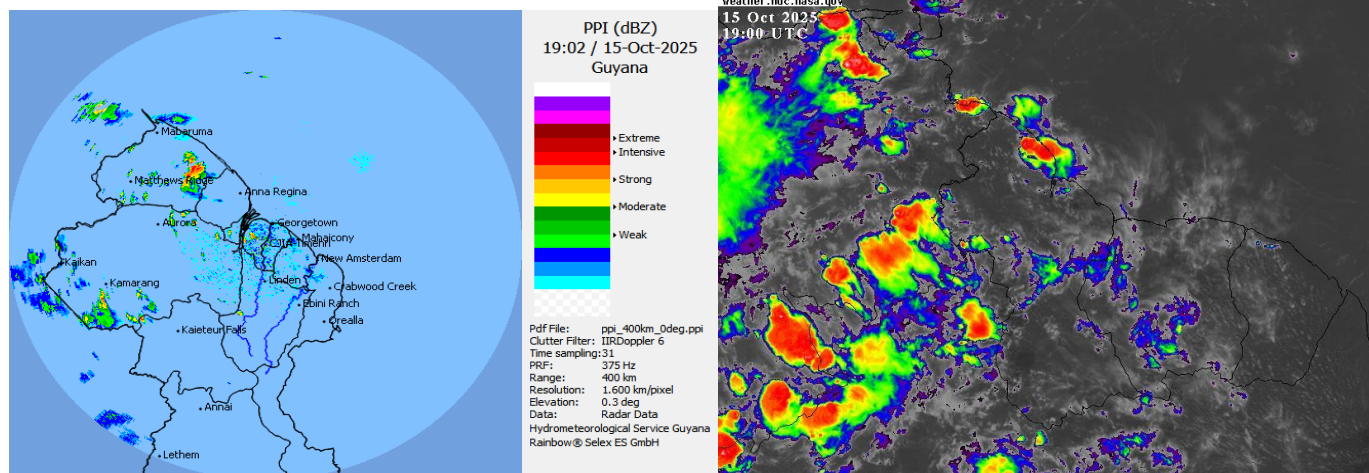

**Marine advisory:** Strong winds can result in moderate seas, leading to hazardous sea conditions. Persons should exercise caution in efforts to safeguard life and property.

**Synopsis:** *Localized diurnal heating coupled with low-level troughs embedded within moisture plumes, mostly at the 850 mb, produced mild to moderate instabilities over Inland and Hinterland Guyana. Coastal Guyana observed mostly stable conditions. A tropical wave is expected to affect the forecast area from Saturday afternoon and continue into Sunday morning. This wave will likely impact areas over Northern Guyana (Regions 1 to 5, 7, and 10). Localized convection will also continue over Southern Guyana. Stable conditions are likely to return from Monday.*

**Today's weather review:** Cloudy skies with isolated to scattered showers were observed over the Inland and Hinterland areas. All other areas observed partly cloudy to sunny skies.

| Wednesday, 15 October 2025 (19:00 hrs – 07:00 hrs) |                                                                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Thursday, 14 October 2025 (07:00 hrs – 19:00 hrs) |                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                    |
