## Weather Brief for Thursday, 21 November 2024 from the Hydrometeorological Service, Guyana

Rainfall records for the past 24 hours, measured at 08:00hrs Thursday, 21 November 2024 were available for most of the stations. Bartica Forestry in Region 7 recorded the highest rainfall of 10.1 mm.

<u>Marine Advisory:</u> High energy waves will likely cause damage to river and sea defense. People are asked to take the necessary precautions.

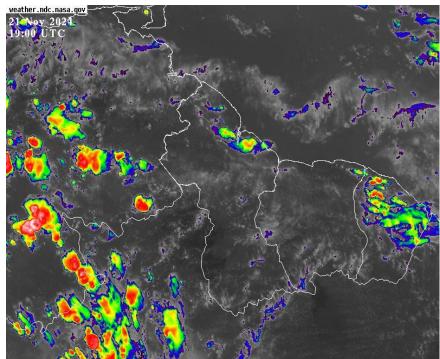

**Synopsis:** Mid-upper-level wind shear and subsidence throughout the atmosphere generated mainly stable conditions, However, localized conditions produced weak isolated pockets of instabilities over inland areas in the afternoon.

<u>Today's weather review</u>: Partly cloudy and sunny skies were observed across Guyana, with brief afternoon showers over inland areas.
